Only \$150 for 10 weeks
Lego Classes on Tuesday's
Beginning Sept. 13th
Spanish classes on Fridays
Beginning Sept. 16th

S.T.E.M

LEGO® Engineering Class

(Science, Technology, Engineering and Math)

WOW LEGO® Engineering: Simple Machines

Levers, Gears, Pulleys, Wheels & Axles

Lego education encourages students to immerse themselves in real-world investigations and problem-solving. Students will make assumptions and predictions, build models, and then observe the behavior of these models. Students will reflect and re-design and then record and present their findings. **New: WEDO LEGO® Robotics**

ALL NEW BUILDING PROJECTS

Little Amigos Spanish

This amazing multicultural class will expose students to the Spanish language in a multitude of ways.

Curriculum includes interactive games, an in depth culture study and art projects. Fall topics include:

•family, holidays, body parts food

Benignus Elementary teachers and WOW Instructors will teach both of these classes.
